I Beat Cancer With FAITH

"I HAVE FOUGHT THE GOOD FIGHT..."

"I HAVE FOUGHT THE GOOD FIGHT, I HAVE FINISHED THE COURSE, I HAVE KEPT THE FAITH"

- 2 TIMOTHY 4:7

Christmas 2019 – 7 Years of Cancer Freedom

December 18th, 2019, as I am preparing to take the stage to offer this wisdom to a room filled with cancer patients, survivors and doctors, I have just received the results of my most recent P.E.T Scan. The test has confirmed once again that I AM still cancer free. Considering my original prognosis, it is totally amazing that these tests have been confirming my cancer free status for more than 7 years now.

What great news to get as we head into the height of the holiday season with Christmas just one week away. This is the seventh Christmas that I will be celebrating with my family since falling out on that bus on that July morning in 2012, with what turned out to be bone marrow cancer – Multiple Myeloma, to be exact.

It's truly a miracle of FAITH that I am still here enjoying my family and friends, here to enjoy the first Christmas that my first grandchild is old enough to have some concept of the joy of the season. It has been an absolute pleasure to witness his reaction to everything from the Christmas decorations around town to the Christmas lights, or "Kissmas Whites" as he calls them, as we move around town.

To think that I could have easily not been here to witness any of this had I not had the FAITH to stand up to the dire situation that I

found myself in. God only knows where I would be today if I hadn't had the power of FAITH to FIGHT back against cancer.

“I WILL Beat Whatever They Say I Have!”

July 14, 2012 – This is the day that my cancer story began. It came upon me suddenly, seemingly out of nowhere. One day I was healthy and vibrant, and the next, I was lying flat on my back in a hospital bed, unable to sit up, roll over, and nowhere near able to stand up and walk.

I had just been hit with a medical crisis that delivered the worst pain I had ever felt in my life and knocked me totally off of my feet. To be sure, this was definitely a scary position to find myself in at just 46 years of age.

On this day, I had no clue of what had just landed in my life. Given the fact the pain seem to be coming from my chest, I personally thought that I was experiencing a heart attack. But the paramedics responding to my call for help quickly said it wasn't a heart attack.

I thought it could be some kind of a diabetic episode. After all, I did love my sugary donuts. But when my blood profile came in, I was quickly told that my blood sugar levels were excellent and I was nowhere near diabetic.

For most of us, there's nothing scarier than being hit with the words, *“You Have Cancer.”* And, as this moment was playing out, that was the last thing that I thought I'd hear a doctor say to me.

Yet in some respects, it really didn't matter what I was diagnosed with because 17 years earlier, on another July day, the **Creator** had gifted me with a formula for APPLYING the power of FAITH to the crises that find their way into the path of life. Just having this wisdom in my possession had made me a fighter.

By now, 9 doctors had begun their work of trying to figure out what was going on inside of me, in earnest. As for me, I was worry free and in a place of peace. In large part, I was able to rest in this moment because I had been warned 8 years earlier that this day was coming.

I had been successfully using the wisdom of how to APPLY FAITH to the affairs of my life and overcoming great adversities for some years up to that point. Then the **Creator** whispered to me that the formula that was allowing me to win those battles was actually given to me for a yet to arrive day – a day when having a grasp on how to wield the power of FAITH would be vital to my life.

As I lay in my hospital room, waiting to find out what was ailing me, that little voice came back to me and told me that the problem that was rearing its head at that moment had already been answered. Then the principles that made up the FAITH formula were flashed on the screen of my mind. I knew what the message of that moment was.

As I reflected upon the big victories that that FAITH formula had brought me in the past, I KNEW that I could definitely handle this crisis as well. So on the strength of the FAITH power I KNEW I had at my disposal, I began to formulate the thought of getting my health back no matter what.

Out of this confidence, as I sat there still not knowing what was ailing me, I preemptively decided that *“I WOULD BEAT WHATEVER THE DOCTORS CAME BACK AND SAID I HAD.”* And, though I didn’t know it at the time, making the declaration that I would *“BEAT”* whatever the doctors diagnosed me with is likely what saved my life.

Admittedly, having had the experience of hearing a doctor speak the words *"YOU HAVE CANCER,"* I can say that the moment is definitely a surreal one. It seems like in a blur you go from being well, to being confronted by some troubling symptoms, to waiting for answers to what's ailing you, to finding out that your worst nightmare has come true, *"You Have Cancer."*

For most people, just hearing those words is like being given a literal death sentence. At that moment, the programmed response may be to ask the doctor, *"How much time do I have?"* And, unfortunately, too many doctors are perfectly willing to answer this ill-conceived question.

To begin with, the patient asking is usually not in the best state of mind to handle such a weighty discussion. And sadly, for far too many people confronted with this crisis, it never occurs at that moment that cancer can be fought and cancer can be beat.

I know these things to be true because I have already had to face each one of them. When I was confronted with that surreal moment, fortunately everything was totally different.

I had a firm grasp on how to wield the power of FAITH and the **God** given, 8 principle formula that would help me unleash that power on this developing crisis. I also KNEW not to ask that question and was blessed to have a wonderful cancer doctor who never even tried to hold that discussion.

Instead, we began our work together by discussing my FAITH, he literally inquired about my level of FAITH with the very first words he spoke to me. Then he moved to offer assurance that the malady that he was about to lay squarely at my feet was fightable, a perfect beginning considering that I had already committed myself

to fighting and winning before I even KNEW who or what my opponent was.

Today, more than 7 years later, sitting here as a cancer survivor I know beyond a shadow of a doubt that you can fight and beat cancer. And, now having had the occasion to personally meet and interview 30 other cancer survivors, I know beyond all doubt that you can beat cancer with FAITH.

I also know that when most people even think about fighting back against cancer, they think about beefing up for the physical aspects of the fight. Or, they think about beefing up in the area of their diet and fitness regimen.

They even think about bolstering their immune systems. And there is nothing wrong with endeavoring to make those improvements. Even the doctors will advise their patients to endeavor in these ways.

But from my experience and observation, there's another vital area that is seldom thought about by the average patient or doctor, an area that few realize offers a proven path to healing – the area of our FAITH! Yet to a person, each one of the 30 cancer survivors that I have met said the development of their FAITH was among their highest priorities.

In fact, each of these men/women described FAITH power as one of the main elements of their victory over cancer and I agree. I agree because I not only beat cancer, to be exact, I beat a Bone Marrow cancer with just one round of chemotherapy, one round of radiation and NO BONE MARROW TRANSPLANT. That's how I KNOW I BEAT cancer with FAITH and YOU can too!!!

Using F.A.I.T.H. as an acronym let me share some of the working principles of FAITH that the **Creator** revealed to me when He gifted

I Beat Cancer with FAITH & YOU Can Too!

me with the wisdom of FAITH (APPLIED). Applying these principles to your cancer battle will allow you to activate the kind of FAITH that has allowed me and others to beat cancer.

“FIGHT THE GOOD FIGHT OF FAITH...”

“FIGHT THE GOOD FIGHT OF FAITH; TAKE HOLD OF THE ETERNAL LIFE TO WHICH YOU WERE CALLED AND YOU MADE THE GOOD CONFESSION IN THE PRESENCE OF MANY WITNESSES.”

- 1 TIMOTHY 6:12

Before you can beat cancer, you have to make up your mind to FIGHT it. And, perhaps before you can truly make up your mind to FIGHT back against cancer, you need to know that you can.

So much of our society considers cancer as an un-fightable disease – a literal death sentence for anyone who is unfortunate enough to have it barge its way into their life.

While it is certainly true that people die of cancer, the fact is that many people FIGHT it and beat it. Since I beat the cancer that barged its way into my life 7 years ago, I have personally met 30 other people who have done the same.

These men and women were from all backgrounds, all ages, all races and had various cancers. While there really are no junior cancers, some have fought and defeated cancers that are often thought of as simply UNBEATABLE!

What I learned talking with these men/women was that aside from a strong belief in the power of FAITH, we all shared one thing in common. We were willing to FIGHT back against the cancer that had attacked our bodies.

Now I know that sounds simplistic. And I also know how easy it is to assume that everyone who is stricken with cancer FIGHTS it. I used to think the same thing before I was diagnosed. But from my experience I can now say that it’s just not true.

For a variety of reasons, some people who are attacked by cancer never step up to FIGHT it. As I have said, I have already personally met 30 other survivors. And, I have also met an equal or perhaps even a greater number of people who unfortunately had their lives cut short by cancer.

Just as the survivors I met all shared key traits in common, those I met who lost their battle with cancer shared key things in common also. One of those things was a spoken unwillingness to FIGHT to live.

That unwilling spirit was rooted in many factors: misinformation, fear, lack of FAITH, little or NO support, bad doctors, to name a few. But whatever its roots, the fact is none of us can win a FIGHT against cancer that we never undertake. I know again that this seems like a given, but I am telling you that it really is not.

You have to make up in your mind that ***YOU ARE GOING TO FIGHT THE CANCER THAT IS IN FRONT OF YOU.***

In fact, affirm this out loud right now:

I AM FIGHTING YOU CANCER!!! I AM GOING TO FIGHT YOU AND I AM GOING TO BEAT YOU, CANCER!!!

Say that! And, as you do, know that the ***Creator*** has not only given you the authority and right to do so. He has also given you the victory over cancer at the very moment that you ***“Accept the Challenge”*** of taking that cancer on.

Scripture says that, *“Death and Life are in the power of the tongue...”* Proverbs 18:21

That means that you have the right and power to speak life or death to your life. That also means that you are speaking life or death to your life with the words that you choose to speak.

As you look out at this health challenge that lies before you, if you want to beat it, you must become conscious of the language that you and everyone around you uses in relationship to the situation.

If you want to beat it, you must begin to speak life and only life to your situation. You should never even contemplate death.

Every cancer survivor that I have met, including me said they did these two things habitually – spoke only life and never considered their death. Speaking for me, I didn't slip in either of these ways for even 1 second of my recovery process.

Also, scripture says that, *"The Lord, Heals all our diseases..."* Psalms 103:3

It also says that, *"This sickness is not unto death, but for the glory of God, that the Son of God might be glorified through it."* John 11:4

That means that if you can have FAITH and take the **Creator** at his word, you already have the assurance of victory, even before you begin your FIGHT. So now will you FIGHT?

*If the **Creator** is for you, who or what can truly be against you?* Romans 8:31 poses that question then goes on to demonstrate that the only answer you and I can have is, "NO ONE!"

So now that you know that you can FIGHT, should FIGHT and that the **Creator** has already given you the victory, let me give you two specific things that you must FIGHT against.

1. You Must FIGHT the cancer Itself

It bears repeating that for you to beat cancer you have got to go to war against it. More than anything else, that means that you have to commit to getting yourself to the doctor and after consultation, running the game plan for your recovery. It means taking the medicines, treatments and procedures prescribed in that plan and giving them a chance to do their job. It means staying engaged and committed even when the process gets painful and uncomfortable.

I get to say that to you because I did it myself. I have to say it because this seemingly simple thing is where I watched many of the people who I know that lost their battle blow it.

The plain truth is that this is the front line of your FIGHT with cancer. It is ground zero and the vigor with which you attack here will determine whether or not you win your FIGHT against cancer.

To be clear, when I say that ***“I Beat cancer With FAITH!”*** by no means do I wish to convey the notion that I beat cancer without doctors, medicines, treatment regiments or procedures. By no means am I trying to suggest that I had no relationship to *TRADITIONAL WESTERN MEDICINE*. Again, this is where I have seen many people blow it.

Whether out of fear, ignorance or plain stupidity, those people who I knew who fail to see the wisdom in working with a doctor lost their FIGHT against cancer. Most often they failed to avail themselves of the medical resources that likely could have saved their life. Even some big name public figures of our time did the same thing.

In the end, most of the ones I knew expressed deep regret at not doing so just before their passing. Don't you do it! As the **Creator**

told me as I lay in the back of the ambulance that was taking me to the hospital to begin my FIGHT, *“TAKE YOUR BUTT TO THE DOCTOR!”* It’s there that you do most of your physical FIGHTING.

Take advantage of their wisdom and expertise. Be thankful that you live in a country where the luxury of health care is readily available. The same thing goes for the medicines, treatments and procedures. Be grateful for them; give a prayer of thanks for their availability. Ask **God** to prepare your body, mind and spirit to receive their healing benefits.

Then know that He is doing just that. That’s what I did! And, guess what? It worked! I Beat cancer with these FAITH principles and I know that You Can Too!!!

Now I must say that when I first was stricken with cancer, I thought that all I had to do was beat the disease and then I’d be able to return to life as I knew it before cancer. Well I now know, just as all other cancer survivors do that that is just not how it works. To totally whip cancer, you have to also take on this next FIGHT.

2. You Must FIGHT the Aftermath of the cancer

To truly win your FIGHT against cancer you have to also take on and defeat any/all of the issues that crop up in the aftermath of your bout with cancer. In my case, the battle with active cancer was a relatively short one and in no time I started getting good reports of clean blood test and scans that looked to see if I had any active cancer in my body.

Starting out on the road to recovery I would have thought that those positive results meant, *“Mission Accomplished!”* But that just wasn’t the truth. Far and away for me, the longest FIGHT has been with the aftermath of the battle – the side effects of the medicines,

treatments and the procedures that I had to undertake to return to health.

Dealing with the “*New Normals*” that have resulted from the impairments and scars left from the battle, plus the ways in which my body and life has changed, hopefully temporarily, has been a FIGHT in its own right.

The FIGHT now is to return to regular life and to keep these changes from becoming permanent. These two have been the fronts upon which I have had to FIGHT against cancer.

In telling you this truth I hope that I am not scaring you out of taking up the FIGHT that is standing in front of you. That’s certainly not my intention.

I’m simply endeavoring to get you ready for battle. I’m trying to paint an accurate and clear picture of the enemy to your health that you are about to take down.

Here again, I can assure you that you have the victory even before you start out in the FIGHT. I am simply getting you ready for the real battle. For sure I have gained a victory over the “*Aftermath*” as well.

And while there is still some mop up work to be done in my health and fitness levels, I can assure you that not only did I not experience all of the bad side effects that are so often feared. I can also tell you that the ones I did experience have all just about cleared up over time.

I know that it will work out the same way for you, if you will give it a FIGHTING chance. I also believe that just having the awareness that you’ll need to FIGHT on both of these fronts will give you the mental and emotional stamina that you will need to “*Beat*” cancer.

So have you made a firm decision to FIGHT and BEAT the cancer that is in front of you? Declare your victory right now before the world! Affirm these declarations out loud:

FAITH Declaration #1

– I AM going to BEAT you cancer!!!

FAITH Declaration #2

– I AM going to BEAT you cancer's aftermath!!!

In the spirit of Proverbs 18:21 learn to “*Speak life to your life*” and life is what you’ll receive. Say them again and again out loud! Affirm them everyday to get it deep inside of you!

Now let’s look at the next powerful letter in our F.A.I.T.H. acronym.

YOU Can Beat Cancer With FAITH Too!

"YOUR FAITH HAS MADE YOU WELL..."

"AND HE SAID TO HER, "DAUGHTER, YOUR FAITH HAS MADE YOU WELL, GO IN PEACE AND BE HEALED OF YOUR ILLNESS."

- MARK 5:34

So there you have a glimpse of the FAITH that I and many others have APPLIED to the FIGHT against cancer.

F = Decide to FIGHT back!

A = Keep a positive, "Can Do" ATTITUDE!

I = Know your INSPIRATION & get the right INFORMATION!

T = Give yourself TIME to heal & Recover!

H = Get HELP to FIGHT & Beat cancer!

At the end of the day my FAITH was the greatest part of how I BEAT cancer. If you will APPLY your FAITH in these 5 ways, you will give yourself the best chance to BEAT cancer, just like me and all the survivors I have met.

In closing, let me leave you with this question, *"Is anything too hard for God?"*

This question was posed in scripture by both man and God Himself. In both cases the question was prefaced with an accounting of the fact that He has created ALL that makes up this world and every living thing in it.

Therefore if God created you, doesn't it stand to reason that He can give you the power to heal? Scripture says, *"I will give you back your health and heal your wounds," says the LORD.*" Jeremiah 30:17.

By this scripture, that is the promise of God for sure. Scripture teaches us that it is with our FAITH that we receive the promises of God. Just as it teaches that,

“God has given each of us the measure of FAITH.” Romans 12:3.

I believe it is with that FAITH that we move His hand. It is by APPLYING that FAITH that you bring Him into the affairs of your life. It is with that FAITH that you unleash the healing power of the universe on the cancer that you are fighting to beat.

It’s worth remembering that scripture also says that, *“With man this is impossible, but with God ALL THINGS ARE POSSIBLE”* Matthew 19:26.

It might be worthwhile to remember this when some man tries to tell you that you beating cancer seems impossible, or especially when you start to feel like you beating cancer is impossible.

You might do well to remember that the cancer that you are facing at this moment is part of the **“ALL THINGS”** that that scripture is talking about.

Stay mindful of this fact so you don’t underestimate your power to beat cancer and so that you don’t speak your demise. And, most importantly, so that you don’t count yourself out and accept defeat and death as your fate.

Remember scripture says that, *“Death and Life are in the power of your tongue.”* No matter what the prognosis says, no matter what the doctor says, **“SPEAK LIFE TO YOUR LIFE!”**

Remember, 8 doctors agreed that I wouldn’t live to see 2013 and that I would never walk again, no matter how long I lived.

But I didn't believe that and I never allowed those sentiments into my ears and my body. I knew the power of the FAITH that God gave me.

And instead of believing their pessimistic views and speaking the doom they saw in my future over my life, I APPLIED MY FAITH. In the end,

**I BEAT CANCER WITH FAITH
& YOU CAN TOO!!!**

**The
Four
Fundamental
Truths of
Your
Recovery**

– The Four Fundamental Truths of Your Recovery: Confessing your FAITH in God’s power to heal and restore you!

Operating in FAITH works no matter what the crisis, assuming we stay in FAITH. When I first got home from the hospital, even before I could get out of the bed I assessed my situation and knew that I would need to find a way to keep the FAITH as I sought my healing. I created a detailed confession of FAITH called, *The Four Fundamental Truths of My Recovery* to help me do that.

Instead of focusing on where I was in this challenging moment, I used this confession to focus myself on the distance that I needed to travel to get back to the level of health and mobility that I enjoyed before cancer. I also used it to keep myself clear on both the progress I was making and the physical and mental things that I needed to do to make the journey back to full health.

Sticking with this confession no matter where I was in the moment has continually led me to new levels of physical, mental and emotional well-being. The example below reflects the outcome of my most recent checkups. These checkups involve me being checked from head to toe, i.e., blood work, MRI's and P.E.T. scans.

All of these test combined serve both as an early warning system and scientific confirmation for my doctors of exactly where I stand in relationship to my healing and restoration from cancer.

While I may be content to draw my own confirmation of my recovery from my FAITH, these men and women of medicine prefer to get theirs from the sciences that they have been schooled in, and that's just fine by me.

If anything, the great reports that they get back only serve to confirm the faithfulness of **God** in keeping his promise to heal and restore me from cancer. In turn, this also serves to bolster my willingness to continue to stand in FAITH until the day that my full health is restored.

Planned with an eye out towards both my medical and physical condition in the moment and my own recovery goals, the written confession looks like this:

The 4 Fundamental Truths of My Recovery

(To be read aloud and visualized daily)

1. – As a result of the medicines, treatments and nutritional support that I've received, this disease is placed into permanent remission, any & all growths, both new ones and those that were housed in my body have now stopped, shrunk and have disappeared from my body. (100% true as of December 18th, 2019 – per Dr. Farjami.)

(I am free of pain, presence and bodily constriction – free to enjoy my normal range of motion and mobility – I can sleep comfortably on my sides and my stomach without stressing my back, I can carry out my field marketing activities and my field recruiting and client meetings without stressing my feet and legs. (85% true as of January 1st, 2020)

2. – As my bones were being cleansed of this disease, new stronger bones were quickly growing back and taking the place of the disease-weakened bones that once existed. (100% true as of December 18th, 2019 – per Dr. Farjami.)

(I am free of the risk of breaking bones, injuring myself or causing paralysis of any kind, especially through the carrying out of my basic daily activities, sleeping on my sides or through engaging in light weight lifting / toning exercises.)

3. – Physically, I have regained near complete bodily strength, I have fluidity in and normal functional use of my lower body – i.e., my legs, the soles of my feet and my knee joints. I am now working to regain full functional use of my full core, i.e., my back & stomach muscles.

Overall, I am healthy and while I must be careful not to put stress or strain on my feet or my back, I must avoid pandering to them and being needlessly inactive because of them. (100% true as of December 18th, 2019 – per Dr. Farjami.)

(I can stand & walk comfortably & normally without causing my feet pain the next day, I am free to resume my ideal daily regimen and 30-hour weekly work schedule. I can also ramp up my full muscular rehabilitation/toning & my weight loss program. (100% true as of January 1st, 2020)

4. – I have now fully reversed the condition of neuropathy and regained normal nerve sensation, feeling and function in my hands and feet. The soles of my feet, the front of my feet & toes, my hands are all back to normal. My back & sides are free of pain, discomfort and spasms. With all things considered, I feel normal in all ways from head to toe and all places in between. (80% true as of January 1st, 2020)

(I am fully restored to the level of health, wellness and personal mobility that I enjoyed before being stricken with this disease. Now being fully healed, I am off

of all medications and treatments. I have suffered no lasting or lingering side effects from taking the medications and going through the treatments that were used to heal me and make me whole again. (75% true as of January 1st, 2020)

To GOD be the glory for my Recovery & Restoration!!!

In Jesus name, AMEN!!! Last updated, January 1st, 2020

Needless to say, the first version of this confession of my FAITH in the healing power of **God** would have acknowledged the fact that after being bedridden for the 12 previous weeks, I was totally weak physically, couldn't sit up erect and could nowhere near stand, much less think of getting out of the bed and walking.

Having started from that place, to be where I am now, more than 7 years later reveals just how powerful a force FAITH is and just how far **God** has brought me back from the brink of a true health nightmare.

True to the spirit of FAITH that we have already talked about, I used this template to give consideration to all of the aspects that I needed to focus on in my push towards recovery and to solicit everything that I would need to get there from the **Creator**. I now offer its example to you in the hopes that you too will use it to focus your mind on the healing and restoration that you both deserve and desire.

You can email me at: ***Template@winwithfaith.com*** to get a fill in the blank copy that will allow you to create your own "***Four Fundamentals of Recovery***" confession of FAITH.

A Personal Message for the Reader

Thank you for taking the time to read *FAITH (APPLIED)*. It's my hope that this wisdom will do for your life, all of the great things that using it has done for my life. This truly is powerful wisdom from above. But to be clear, it is not my claim that these principles alone are the source of the miracles that they make possible. Nor is it my claim that you or I are the source of the miracles that we might obtain through their use.

Hebrews 12:2 says that, Jesus Christ is the author and finisher of our faith. I must state emphatically that my faith is in my Lord and savior, Jesus Christ and the God that is his and our Creator.

Romans 12:3 says that, the Creator has given each one of us the measure of faith. If you have never established a personal relationship with your Creator, there is no greater way to get the power of *FAITH (APPLIED)* flowing in your life.

John 14:6 says that there is only one way to the Father. It is through a personal relationship with Jesus Christ. If you have never given your life to Jesus, no single act will ever do more for you in this life or in the after life to come. If you haven't yet established a relationship with Jesus, there is no better time than the present moment to do it!!!

Will you say this simple prayer?

Dear Jesus,

I know I'm a sinner and I need a savior. I believe You are the Son of God, that You died, paying the price for my sins, and rose again. I ask You to come into my life now. I now receive You as my Lord and Savior.

If you have said this simple prayer, know that you have now accepted Jesus as your Lord and Savior and all the angels in heaven are rejoicing! Let me both congratulate and welcome you to the Christian family! You have taken a powerful step to unleash the real and true power of *FAITH (APPLIED)* in your life.

Now get in a Christ-centered, Bible-based, Faith-centered church in your area. Most importantly, from this day forward know that God is real! God is still here! God is still involved in the lives of his children today! And, through *FAITH (APPLIED)*, God is still your personal miracle maker!
